

# FFA GUIDELINES

\*FFA only- the FFA team representing FFA for one day for testing only.

\*LUC team-the team FFA or NON that is representing their LUC for both days of the competition.

***Representation Guidelines:*** Your winning team whether FFA or not will go to State and represent for BOTH days. If your winning team is NOT FFA, your LUC then has the option to send your top scoring FFA team as well as your winning LUC team. The top FFA team will then represent for the first day as FFA ONLY (FFA Natural Resources State Competition) and your LUC team will represent for BOTH days. In other words potentially your LUC could send two teams.

***Registration Fees:*** If the FFA team is representing the Land Use Council their fee is \$250 if they are ONLY representing the FFA for the one day it is \$100. It is up to your Land Use Council as to how these fees are paid. Some LUC's pay both fees and some LUC's pay for only the team representing their LUC and ask the FFA team to pay their own fees if they are the top FFA team representing for FFA ONLY.

***Registration Forms:*** All teams will fill out the same registration forms and release documents as well as turning in a copy of their insurance cards. Please be sure to mark on the registration form for FFA ONLY and LUC Teams.

***Eligibility:*** Each FFA team's registration will be sent to the FFA Executive Director to check for eligibility that each team member is an FFA member if they will be representing as FFA only.

***Testing:*** ALL teams (FFA ONLY and LUC team) will participate in all 5 testing categories. The only event that FFA will not be participating in is the oral presentation. Testing results will be provided to the Illinois FFA, Land Use Council's and to FFA Coaches to be shared with students, districts etc.

***Meals:*** Meals are provided to overnight guests only, so please make arrangements for your own meal after the competition if you are FFA ONLY.
